

Day 1 Introduction to Friction Ramps English Language Arts

Friction is a force that slows how an object moves. Write about/draw where you've seen friction in action.

Day 1 Introduction to Friction and Ramps

Math

Survey your family and place a tally mark in their favorite activity.

Day 1 Introduction to Friction and Ramps

Science

Sudsy Discoveries

Let's create our own friction...

1. Rub your hands together. We learned that when two objects rub together, they create friction.
2. Now, wash your hands with soap and water. Do the soap suds create more or less friction?
3. Explain.

Day 1 Introduction to Friction and Ramps

Social Studies

Look around your home or community. Do you see any ramps? Is there a place in your home or community that could use a ramp to help in some way? Discuss this with a family member.
